INDIA Food 2024

Indian food industry has come a long way since the time of Independence in 1947. From a ship to mouth existence, India has emerged as a food basket for the world. Today, India is the largest country in terms of food production, processing, supply, and consumption. India's food market is ranked 6th in the world, with 70% of sales and 5th in production, consumption, and export. India is today the largest producer of F&V, milk, sugar, pulses, spices, oilseeds etc. During the last two decades, the food consumption pattern has significantly changed and that had led to the growth of a gigantic size food processing industry. Today the size of Indian food retail market is valued over \$800 billion with a growth rate of 11% AGCR. With the rapid growth of the Indian economy, a shift is also being seen in the consumption pattern of the country, from cereals to more varied and nutritious diet of fruits and vegetables, milk, fish, meat and poultry products. All these efforts have considerably enhanced the status of the Food Processing Industries. The Indian food processing industry accounts for 32 per cent of the country's total food market, one of the largest industries in India. It contributes around 14 per cent of manufacturing Gross Domestic Product (GDP), 13 per cent of India's exports and six per cent of total industrial investment.

Indian Chamber of Food and Agriculture (ICFA) with the support of the Government of India and several States and in technical collaborations with a large number of industry associations and international bodies, is fully geared up to floor INDIA FOOD 2024, to expedite partnerships between Indian and International businesses and investors, providing an opportunity to

showcase, connect, and collaborate; and explore the enormous business opportunities in India's rapidly growing food processing and food retail sectors. INDIA FOOD 2024, a gateway to Indian Food Economy, will be the largest gathering of food industry experts, investors, producers, food processors, retailers, policy makers, experts and business organizations who will share their prized insights on available technologies, trade and business models and modern innovations in global food ecosystem. Additionally, this insightful global knowledge and trade event will encompass industry-oriented topics, opportunities for start-ups and international participation. Indian Food industry and businesses, institutions, Central Ministries and the State Governments will have the opportunities to showcase their products and technologies, programs and services, potential and achievements before targeted national and global stakeholders, and thereby explore possibilities of investments, technical cooperation, trade, business, marketing and partnerships opportunities. Enveloping the entire food spectrum from production to consumption, INDIA FOOD 2024 aims at creating a superior sourcing environment, thereby enabling higher returns for farmers, creating employment, promoting entrepreneurship and ensuring Healthy Food for All.

ICFA invites you to avail this wonderful opportunity to take a proactive part as a zealous exhibitor or sponsor during the forthcoming exciting event, INDIA FOOD 2024, and showcase the products, technologies, programs and services to a colossal target audience on a single, vibrant and colossal platform for two consecutive days.

Food Processing Sector in India

India's Food Processing sector is identified as sunrise sector with projected size \$535 billion by 2025-26. India's food ecosystem offers huge opportunities for investments with stimulating growth in the food retail sector, favorable economic policies, and attractive fiscal incentives. The sector, however, needs technologies, investments and global partnerships to unlock its full potential.

India Food Market Size

The Indian food and grocery market is the world's sixth largest, with retail contributing 70 per cent of the sales. The Indian food processing industry accounts for 32% of the country's total food market, one of the largest industries in India and is ranked fifth in terms of production, consumption, export and expected growth. It contributes around 8.80% and 8.39% of Gross Value Added (GVA) in Manufacturing and Agriculture respectively, 13% of India's exports and 6% of total industrial investment.

Objectives :

- To harness colossal opportunities for investments in India's food ecosystem which will stimulate growth in the food retail sector, lead to favourable economic policies and attractive fiscal incentives.
- To provide unique opportunity for interaction amongst top leaders of ace food processing and retail companies, key stakeholders namely government officials, experts, industry CEOs, traders, FPOs, entrepreneurs, start-ups, developmental agencies and institutions to catalyse growth, innovations and entrepreneurships.
- To showcase India as an investment destination and the massive opportunities in its food economy and exploring investments, technologies, marketing and collaborations.
- To provide platform to the states, institutions, officials, experts, industries and international bodies to showcase scope and opportunities, vast resource base of India, latest products, advanced technologies, food processing models, logistics, post-harvest management, global best practices and to connect with farmers and Food processing & Retailing start-ups.
- To facilitate global companies for exploring opportunities for food sourcing, business and investments, JVs, technical and marketing collaborations, exports and partnerships and signing of MoUs towards finding business partners, expanding business, increased value addition, trade and food processing sector.
- To provide exposure, enrich knowledge and formulating progressive policy inputs through the technical seminars, international conferences, business dialogues and interactions among the Indian and global industry leaders, exhibitors, experts, farmers, entrepreneurs, industries and business CEOs.
