Message from MD

We at Earth Water Foundation are very honoured to host you at the 20th Edition of EverythingAboutWater Expo 2025.

With this edition of the expo, we're aiming to showcase the trends in the World of post-pandemic Water Management technologies. With your support and participation, EverythingAboutWater Expo has emerged as the most sought-after sourcing hub for serious buyers and businesses looking at hassle-free solutions. Our exhibitors have curated the very best and latest in Water Management technology and we hope you'll have a fruitful buying experience.

With a legacy of 20 years, I can assure you of impeccable service and support from my team. My team has worked really hard to put the show together and I thank each and everyone who has made the journey to our Nineteenth year possible.

Here's wishing everyone a pleasant, fruitful and very successful 20th EverythingAboutWater Expo 2025

Mr. Sunil Ghorawat
(Founder & Managing Director)
Earth Water Foundation

Message from VP

Dear all,

Welcome to the 20th Edition of EverythingAboutWaterExpo 2025.

We're into the the 20th Edition of EverythingAboutWaterExpo 2025 with your immense love and support. The response of all stakeholders of Water Management industry has realized the dream of establishing EverythingAboutWater Expo as an International platform to encourage Indian and International Water Management Industry.

The Industry possesses a huge potential to thrive globally and contribute distinctively to the GDP growth. Therefore, we came up with a show that can pace up the dynamic growth of the sector.

EverythingAboutWater Expo is significantly valued by the Water Solutions sector for providing an insight of the recent trends, innovations and demands of the sector.

This Expo also is an optimum platform to provide networking and customers to the exhibitors, not only from the country but across the Globe.

EverythingAboutWater Expo 2025 is now recognized globally and has emerged as a huge ecosystem for the Water Solution sector to rise and shine.

We all started it together, but there are still many more milestones that we must achieve. I hope that we keep adding more people from the different niches of this sector to our voyage.

I wish you the very best of luck at EverythingAboutWater Expo 2025

Ms. Nisha Aggarwal
Vice President
Earth Water Foundation

About the Event

Get ready for India's most comprehensive annual event in the water sector—The 20th EverythingAboutWater Expo 2025! This cutting-edge platform showcases the latest technologies and solutions driving the future of water management. A must-attend for global stakeholders, the expo opens doors to explore India's thriving water industry, foster valuable business connections, and dive into groundbreaking innovations that will transform the water sector.

Don't miss this chance to network, discover opportunities, and be part of a rapidly growing industry!

India is on the brink of severe water stress, with projections showing a critical gap between water supply and demand by 2030. Rapid industrialization and a booming population have intensified this issue, prompting urgent action from both Central and State Governments.

Currently valued at over \$23 billion, India's water market is expected to witness substantial growth in the coming years, presenting immense opportunities. The 20th Everything About Water Expo 2025 offers a unique platform for domestic and global players to tap into these opportunities, discover emerging trends, and gain insights into this evolving sector.

As India aims to address its water challenges, the Expo will be a pivotal event for businesses and innovators in the water industry, providing unparalleled access to a thriving market poised for transformation.

Why Delhi?

Delhi is an ideal location for the Expo due to its strategic significance in India's Water management landscape. As the capital city, Delhi serves as a hub for Government agencies, Industry leaders, and experts in the field of Water conservation, treatment, and technology. Its central location facilitates easy accessibility for both National and International participants, fostering a diverse and influential attendee base. Additionally, Delhi's well-developed Infrastructure, including World-class Convention centres and accommodation options, ensures a seamless and productive experience for exhibitors and visitors alike. This vibrant metropolis provides a dynamic backdrop for the Expo, promoting collaboration, innovation, and the exchange of ideas to address pressing Water-related challenges.

Venue

(BHARAT MANDAPAM)
International Exhibition Convention
Centre (IECC), Pragati Maidan, New
Delhi, India

Located in the heart of New Delhi, Bharat Mandapam is one of India's largest and most advanced convention centers. Inaugurated in 2023, it boasts 3,90,000 sq. meters of space, featuring six state-of-the-art exhibition halls and a meeting hall with a capacity of 7,000. With seamless access via rail, metro, highways, and the airport, it's the ideal venue for hosting large-scale events, conferences, and exhibitions.

Event Highlights

South Asia's largest Water and Wastewater event, officially endorsed by India's Ministry of Jal Shakti & Other Ministries for its crucial role in water sustainability.

Featuring a grand exhibition space of over 100,000 square feet with 200+ leading exhibitors showcasing the latest innovations in water technology.

Special pavilions for key countries, including the USA, Canada, Taiwan, the UK, Israel, Norway, and the Netherlands, each bringing unique industry insights.

A platform facilitating business deals, partnerships, and collaborations with a focus on innovation, sustainability, and advancing water sector initiatives globally.

Tailored training programs on advanced water and wastewater technologies, attracting professionals keen to enhance industry expertise.

Over 100 prominent multinational water companies represented, delivering solutions for water conservation, treatment & sustainable practices worldwide.

Hosted a highly engaging 2-day International Conference with expert-led sessions addressing current trends and solutions in Water and Wastewater Management.

Drawing more than 10,000 business visitors, including executives, government officials, water industry leaders, and global consultants for knowledge sharing and networking.

5 Reasons Why You Must Exhibit

01 GENERATE SALES LEADS

Collect relevant contact information and generate high-quality sales leads to expand your reach and boost your sales pipeline.

02

SHOWCASE INNOVATIONS

Gain a premier platform to exhibit your latest innovations, technologies, and products to a targeted and engaged audience.

03

NETWORK WITH LEADERS

Connect directly with influential industry leaders, policy makers, and visitors to build valuable relationships and potential partnerships.

04

REACH YOUR AUDIENCE

Leverage an unmatched opportunity to connect with an audience specifically interested in your products and solutions.

05

GAIN MARKET INSIGHTS

Obtain first-hand feedback from customers and market experts to refine your products and identify market trends.

“With numerous companies and Government Institutions poised to make substantial Investments in projects of varying sizes, this event offers a tremendous opportunity for you to showcase your offerings.”

20th EverythingAboutWater INTERNATIONAL CONCLAVE 2025

The EverythingAboutWater International Conclave 2025 is a premier global gathering for experts, professionals, and enthusiasts from diverse fields, all committed to the sustainable management of water resources. Recognized for its comprehensive approach, this prestigious event serves as a dynamic platform to exchange knowledge, foster international collaboration, and inspire innovation within the water sector. As nations grapple with escalating water scarcity, pollution, and infrastructure challenges, the conclave is designed to address these pressing issues through insightful discussions, cutting-edge technologies and actionable solutions. Together, attendees will explore best practices, policy frameworks, and sustainable strategies to shape a water-secure future for communities worldwide.

Key Highlights

Expert Panels

Engage with leading experts, policymakers and Industry leaders through panel discussions and keynote speeches.

Workshops & Training

Participate in hands-on workshops and training sessions to acquire practical skills and knowledge.

Technology Showcases

Experience firsthand the latest innovations in Water technology through interactive exhibits and demonstrations.

Research Presentations

Learn about groundbreaking research and studies in the field of Water science and technology.

Networking Opportunities

Connect with professionals and organizations dedicated to Water-related initiatives from around the World.

Sustainability Initiatives

Discover how organizations are integrating sustainability into their Water-related projects and initiatives.

"Uniting Global Minds for Water Security: Driving Innovation, Collaboration and Sustainable Solutions to Tackle Today's Challenges and Shape Tomorrow's Water Future."

Key Highlights Of Previous Event

The 19th Edition of the EverythingAboutWater Expo & Conclave 2024 has been a remarkable success, once again cementing its position as South Asia's largest and most influential event in the water and wastewater industry. Held from 10th to 12th September 2024 at the India International Convention & Expo Centre (Yashobhoomi), Dwarka, New Delhi, the event attracted industry professionals, innovators, policy-makers and global leaders from across the water management ecosystem.

EverythingAboutWater Expo & Conclave provides a premier platform to foster dialogue, showcase cutting-edge technologies and present innovative solutions in water management. The Expo's goal is to connect leading solution providers with decision-makers and stakeholders in water treatment, infrastructure and sustainability sectors. This year's event focused on addressing critical challenges, such as water scarcity, wastewater treatment, and the adoption of smart water technologies, further driving forward conversations around sustainable water practices.

Key Highlights:

The Expo also featured a two-day International Conclave, where top water professionals, industry leaders, and policymakers convened to discuss emerging trends, innovative solutions, and sustainable practices in water management. Through a rich lineup of sessions, hands-on workshops, and specialized exhibitions, the event connected global experts with regional stakeholders, emphasizing the importance of collaborative efforts for efficient water resource management.

The Conclave drew high-profile exhibitors and influential government policymakers, facilitating impactful discussions between industry leaders, technology innovators, and end-users. Media coverage from prominent outlets provided global visibility, showcasing the Expo's relevance and expanding its reach beyond regional boundaries. With a diverse international presence, the event highlighted groundbreaking technologies and best practices from around the world. This unique gathering underscored the role of water management in environmental and economic sustainability, fostering an environment of shared knowledge, actionable strategies, and meaningful partnerships for addressing today's most pressing water challenges.

Rave Reviews From Our Participants

It was a great experience at the exhibition, showcasing diverse products, sharing experiences, and enjoying the event. The ambiance was excellent, and the space was neat and clean. Keep it up!

Sintex BAPL

Water Expo 2024 has been amazing. We met both new and old connections and received numerous genuine inquiries that will boost our business. It's a great show with a nice atmosphere.

Kyk Corp India

As first-time exhibitors, we had an exceptional experience at the EA Water Expo 2024. The event was a great platform to connect with industry leaders and showcase our innovative water solutions.

Aquabrim Home Appliances

The event had a decent number of participants and was well organized. The security arrangements were commendable, and overall, the experience was positive.

Era Overseas

The 19th Everything About Water Expo 2024 provided an excellent opportunity to meet potential customers. We appreciated all the support from the organizers before and during the exhibition.

Primem Pte Ltd

A great platform to connect with people from the same trade across the country. The event was beneficial for us, and we look forward to future editions.

Centrepoint Lifestyle

The Everything About Water Expo 2024 was a well-organized event with strong international participation. It provided a valuable platform for business promotion and networking.

Rainmaker Holland

The footfall was great, including prominent figures like Avinash Mishra (Niti Aayog) and DJB officials. More focus on digital transformation and consultant participation would benefit future expos.

Seimens

The 19th Everything About Water Expo was well-structured with reasonable pricing. Though the crowd was smaller, the quality of attendees made up for it, offering valuable business connections.

Alpha Engineering

The expo connected us with a diverse audience, including government officials and enterprise leaders. It provided invaluable feedback and fostered meaningful partnerships for future endeavors in water quality solutions.

Cluix

Water Expo 2024 was a unique and comprehensive event, highlighting the latest technologies in water management. The expert lectures added significant value to the experience.

Solidaridad Network

The 19th edition of the expo brought us closer to the Indian market, receiving interest from potential clients. While the turnout was below expectations, we look forward to future editions.

Bluesen

Media coverage and reach of our previous Everything About Water Expos have been exceptional. With extensive coverage across various media platforms, including television, print, online and social media, our expos have consistently attracted a global audience.

Prominent News outlets and Industry publications have featured our expos,

Everything About Water Expos have become global benchmarks in the Water and Wastewater sector, drawing exceptional media coverage across TV, print, and online platforms. This visibility ensures our expos are must-attend events, connecting industry leaders, policymakers and innovators from around the world.

highlighting the latest innovations and trends in the Water and Wastewater sector. This widespread media attention has helped us reach a diverse and influential audience, including professionals, policymakers and stakeholders from around the world.

Through our strategic marketing efforts and partnerships, we've expanded our reach, ensuring that our expos are not only well-attended but also widely recognized as premier events in the Water Industry. This extensive media coverage has contributed to the success and growth of our expos, making them a must-attend for anyone involved in the Water sector.

Highlights in Pictures

From insightful sessions led by industry experts to networking opportunities and innovative solutions on display, relive the energy and excitement of the EverythingAboutWater Expo & Conclave 2024 through this image gallery.

What's New?

INTERNATIONAL PAVILION

The International Pavilion is a dynamic space connecting global leaders, innovators and businesses in the water industry. It provides a unique platform to explore international water technologies, foster cross-border partnerships and engage with delegates from around the world, all in one place, advancing global collaboration and knowledge exchange in water management.

GOVERNMENT PAVILION

The Government Pavilion showcases initiatives, policies and projects from national and regional government bodies focused on water management and sustainable development. This dedicated space facilitates direct interaction with policymakers, offers insights into regulatory frameworks, and highlights government support, driving meaningful collaboration between the public and private sectors.

START-UP ZONE

The Start-up Zone is designed to spotlight emerging players and disruptors in the water industry. It's a platform for young companies to present cutting-edge ideas, attract investments, and network with potential partners. Attendees can discover fresh perspectives and pioneering solutions that address pressing water challenges in innovative ways.

PRODUCT LAUNCH ZONE

The Product Launch Zone is where the newest technologies, products, and services in the water industry are unveiled. Visitors have the chance to witness live demonstrations, engage directly with innovators, and experience firsthand the latest advancements that are set to redefine water and wastewater management practices globally.

INNOVATION ZONE

The Innovation Zone is a hub for breakthrough ideas and transformative technologies shaping the future of water management. Here, attendees can explore exhibits featuring state-of-the-art solutions and engage with creators behind pioneering advancements, inspiring new approaches to tackling water and environmental challenges with impact-driven innovations.

VIP LOUNGE

The VIP Lounge offers an exclusive retreat for high-profile attendees, including industry leaders, government officials, and key decision-makers. This space is ideal for networking in a comfortable setting, allowing for private discussions, high-level meetings, and strategic collaborations in an inviting environment that fosters meaningful connections and valuable insights.
